A Long Way from Verona Jane Gardam, 2013-11-05 "Far more than just another coming-of-age story" from the award-winning author of the Old Filth trilogy (Bustle). Jane Gardam's marvelous stories of young girls on the threshold of womanhood—God on the Rocks and Crusoe's Daughter—have delighted fans and critics alike. These "modern classics" are now joined by a novel that is equally fresh and genuine, comic and touching (The Independent). Jessica Vye introduces herself with an enigmatic pronouncement: "I ought to tell you at the beginning that I am not quite normal, having had a violent experience at the age of nine." A revered author has told Jessica that she is, beyond all doubt, a born writer. This proves an accurate prediction of the future, one that indelibly colors her life at school and her perception of the world. Jessica has always known that her destiny would be shaped by her refusal to conform, her compulsion to tell the absolute truth, and her dedication to observing the strange wartime world that surrounds her. What she doesn't know, however, is that the experiences and ideas that set her apart will also lead her to a new and wholly unexpected life. Told with grace and inimitable wit, *A Long Way from Verona* is a wise and vivid portrait of adolescent discovery and impending adulthood. "A book to be judged by the highest standards." —The Spectator "A brilliant, witty, and agonizingly true-to-life novel." —The Times Literary Supplement "A fiercely funny and personal book." —The Economist "The qualities for which Gardam is cherished (the quirkiness, the bright-eyed wonder at reality) are already apparent in this early work." —Kirkus Reviews

It focuses on ingenious ways to recycle and reuse, from transforming furniture with a lick of paint to finding new uses for everyday items. The Details section looks at textiles, furniture and display, and the second half of the book, Spaces, reveals how the style works beautifully in Living Spaces, Cooking & Eating Spaces, Bedrooms & Bathrooms, Children's Rooms, Craft & Work Rooms, and Outside. *Homespun Style* reflects our growing passion for all things crafted, stitched, knitted, and painted. Selina Lake visits homes packed with personality and interest, full of homemade pieces, restored junk-store finds, and one-off treasures.

Good Things Happen Slowly Fred Hersch, 2017-09-12 Jazz could not contain Fred Hersch. Hersch's prodigious talent as a sideman—a pianist who played with the giants of the twentieth century in the autumn of their careers, including Art Farmer and Joe Henderson—blossomed further in the eighties and beyond into a compositional genius that defied the boundaries of bop, sweeping in elements of pop, classical, and folk to create a wholly new music. *Good Things Happen Slowly* is his memoir. It's the story of the first openly gay, HIV-positive jazz player; a deep look into the cloistered jazz culture that made

such a status both transgressive and groundbreaking; and a profound exploration of how Hersch's two-month-long coma in 2007 led to his creating some of the finest, most direct, and most emotionally compelling music of his career. Remarkable, and at times lyrical, *Good Things Happen Slowly* is an evocation of the twilight of Post-Stonewall New York, and a powerfully brave narrative of illness, recovery, music, creativity, and the glorious reward of finally becoming oneself.

Procrastination David Cliff Moore, 2020-03-08 Are you always feeling like time is just too short and everything you do is like rushed? Then you are most likely procrastinating. For most of us, procrastination is subconscious. We do not choose to avoid a task intentionally, rather it just sorts of happens. Why do we procrastinate? If your brain tells you, this will never happen or you will probably fail anyway that is your ego talking and creating doubt. By creating doubt, your brain is prompted to release certain chemicals much like those when you experience pain. This makes you feel better and the memory of that pain (albeit imagined and minor) is smoothed over and pushed into short term memory where it can be promptly forgotten about. In contrast, when we are productive or successful our brains release altogether different chemicals that evoke happiness. It's the anticipation of these happiness chemicals that make us crave success and completion, the issue is that the pain of our own ego is getting in the way. This book covers the following topics: Information on Procrastination and How to Stop it Insights on Overthinking, Mental Toughness, and Self Discipline Tips on How To Boost Productivity Time Management Tips Recommended Strategies to Deal With Stress ...And so much more!! Most people confuse procrastination with laziness, but they are quite different. Laziness is an inactive process while procrastination is an active process. Procrastination involves choosing to do something less important instead of the crucial project while laziness is inactivity, inability to act or unwillingness to take action. Most procrastinators lead a busy life. They are always engaged in easy and enjoyable tasks as opposed to seemingly tough jobs that are more important or rewarding. Would You Like To Know More? Salvador Dali & Andy Warhol Torsten Otte,2016 Few figures tower over twentieth-century art like Salvador Dalí and Andy Warhol. Their works were pathbreaking and incalculably influential, yet at the same time both artists were wildly popular in their lifetime and have only become more so in the decades since their deaths. Despite the striking differences in their art and personalities, the two men nonetheless had a lot in common--the most obvious being a strong sense of the power of publicity and an affinity for eccentricity and extravagance. They also shared a love of New York, which both men made the heart of their social lives; it was there, in the 1960s, that they met for the first time. This book offers the first-ever direct juxtaposition of Dalí and Warhol as personalities and artists. Torsten Otte builds his account through perceptive analyses of similarities in their lives and work, and he fleshes it out brilliantly through interviews with some one hundred and twenty people who knew and worked with the men. A rich illustration program rounds out the book, making it an essential document of twentieth-century art and a wonderful addition to the libraries of fans of these two giants.
